

BROOK CROMPTON

ISO9001
Certificate No. FM77747

Product Health & Safety Statement

The electric motors sold by Brook Crompton comply with international standards and the product is CE marked indicating compliance to relevant European directives and are designed not to include restricted certain harmful hazardous materials.

In compliance with the EU Directive 2002/95/EC (RoHS) and 2002/96/EC (WEEE) we declare that our products do not include the following materials: -

Arsenic and arsenic compounds
Asbestos
Aldrin
Aliphatic chlorinated hydrocarbons - trichloroethane, tetrachloroethane, pentachloroethane, hexachloroethane, carbontetrachloride, chloroform,
Azo compounds
Benzene compounds - Benzene, hexachlorobenzene
Beryllium and beryllium compounds
Bis (tributyltin oxide)
Bromine based flame retardants - Polybromobiphenyl (PBB), Polybrominated diphenyl ether (PBDE)
Cadmium and cadmium compounds
Carcinogenic amines - 2-naphtylamine and salts, Benzidine and salts, 4-nitrobiphenyl and salts, 4-aminobiphenyl and salts
Chlordane
Chlorinated compounds - Chlorinated paraffin, Bis(chloromethyl) ether, Chloro-1-ethylene, Pentachlorophenol and salts/esters, Polychlorinated Biphenyls (PCBs), Polychlorinated Naphthalene, Polychloroterphenyls (PCT)
DDT Furans, Di- μ -oxo-di-n-butylstanniohydroxyborane(DBB), Dieldrin
Endrin
Fluorocarbon release agents (CFCs & HCFCs)
Heptachlor
Hexavalent Chromium and compounds
Latex
Lead and lead compounds
Mercury and mercury compounds
Mirex
Organic tin compounds (Tributyl tin & Triphenyl tin)
Toxaphene

Our products may include the following controlled materials whose use is not restricted: -

Copper in winding wire, Silver in switch contacts on single phase motors and Nickel plating on connections.
